

CHANACHAI SAPPASO

Software Engineer - Technical Lead 🔥

linkedin.com/in/chanachai-sappaso-822a79127

ABOUT ME

Software Engineer and Technical Lead who views coding as a creative craft, turning complex problems into clear, elegant solutions. Experienced Full Stack Developer with a strong background in developing and presenting technical solutions to senior executives and key stakeholders. Proficient in TypeScript, React.js, Java, and Golang, with additional expertise in J2EE, Spring Framework, JavaScript, and Node.js. Adept at applying Domain-Driven Design (DDD) principles to create scalable, maintainable software architectures. Skilled in DevOps practices using Kubernetes, Jenkins, and GitLab CI, with extensive experience in deploying applications on AWS, Google Cloud Platform, and Firebase. Current work includes banking applications and core banking services at CodeFin.

PERSONAL INFORMATION

BIRTH DATE	ADDRESS
19 September 1995	Chonburi Thailand
EMAIL	PHONE
chanachai.devper@gmail.com	089-245-6916
NATIONALITY	
Thai	

EDUCATION

 **King Mongkut's University of Technology North Bangkok**
2014 - 2017

Bachelor's degree Business/Commerce (GPA 3.28)

EMPLOYMENT HISTORY

Software Engineer - Technical Lead at CodeFin
Oct, 2024 - Present Full-Time

- Technical leadership across backend, frontend and infrastructure; support the team, propose solutions and improve development processes using Agile Scrum.
- Core Banking Services
 - Deposit, withdrawal and card spending services for a banking client.
 - Stack: Golang, Java
- Mutual Fund Application
 - Flutter application for another banking client.

Software Engineer - Frontend (React) at Customix
2022 - Oct, 2024 Full-Time

- Ecommerce Platform
 - Stack: PIMCORE , NodeJS(Express) , NextJS(React) with AWS
- Ekyc Platform
 - Stack: Appman, Node.js (Express), NextJS(React) with AWS
- Ads Platforms
 - Features: Ads Management, Provider , Report , Cost Analysis
 - Stack: Golang , Lambda , MongoAtlas , React , EKS
 - Detail: All Solution initiative & Implementation
 - Role: SA , Frontend Developer , Devops

Software Engineer - Backend (Golang) at Computerlogy
Feb, 2020 - Jan, 2022 Full-Time

- Social Listening Platform
 - Stack: Golang with GKE, RabbitMQ
- News & Contents Crawler Service
 - Stack: Golang with GKE

Software Engineer - Full Stack (Java) at ITALIAN-THAI DEVELOPMENT PCL.
May, 2018 - Feb, 2020 Full-Time

- ERP Data Flow
 - Stack: SAP S/4HANA, ABAP, Java Spring, Hibernate, Servlet, React.js
- Employee Training Management System
 - Stack: Java Spring, Hibernate, Servlet, React.js
- Cost Analysis Report System
 - Stack: Java Spring , Hibernate, Servlet, JQuery, DHTMLx

Web Developer Freelance
Jan, 2015 - May, 2018 Part-Time

- Rayong Runing Marathon Register Application & Landing
 - Stack: Laravel, HTML5 , JQuery , Photoshop
- Material Tracking at CWGreat Company Limited
 - Stack: PHP Mvc, HTML5 , JQuery , Photoshop

LANGUAGES & EXPERTISE

- TypeScript** : Advanced in building scalable front-end applications with Next.js and React.js. Expertise in type-safe code, enhanced by Tailwind CSS for design, Figma for layouts, and Nx for micro frontend architecture.
- Lua** : Experience in scripting for online game tools, focusing on performance and efficiency to enhance player interactions.
- Golang** : Strong background in developing high-performance microservices, including a web crawler microservice using RabbitMQ and MongoDB, managing over 1 million messages per minute.
- Java** : Proficient in creating BPM (Business Process Management) systems integrating with SAP S/4HANA, managing DB2 databases, and writing ABAP code for report generation. Experienced with Spring Framework for robust enterprise applications.
- Flutter** : Mutual fund application development for a banking client.

DEVOPS SKILLS:

- CI/CD** : Skilled in setting up and managing CI/CD pipelines with Jenkins and GitLab CI. Proficient in Docker and Kubernetes (K8s) for containerization and orchestration.
- Deployment Strategies** : Skilled in implementing various deployment strategies including canary deployments, blue-green deployments, and rolling updates to ensure smooth and reliable application releases.
- Cloud Platforms** : Experienced with AWS and Google Cloud, focusing on scalable, high-performance cloud infrastructure.
- Service Mesh** : Utilized Envoy for service mesh to enhance observability, security, and traffic management in microservices.
- Scalability and Performance** : Expert in designing scalable systems and optimizing performance across cloud environments and containerized applications.

SPECIALIZATIONS:

- System Optimization** : Expertise in performance tuning and optimization across multiple languages and platforms.
- Best Practices** : Deep knowledge of design patterns, clean code principles, test-driven development (TDD), and Domain Driving Design (DDD).
- Micro Frontends** : Experience with Nx for implementing modular, scalable micro frontend architectures with Island Architecture Principles.
- DevOps** : Proficient in CI/CD (Jenkins, GitLab CI), containerization (Docker), orchestration (Kubernetes), cloud infrastructure (AWS, Google Cloud), and service mesh (Envoy).

AI & TECHNICAL LEADERSHIP

- Hands-on configuration of AI harnesses and AI-assisted engineering workflows.
- Technical guidance and solution design across frontend, backend and infrastructure.

CERTIFICATIONS

ISO 29110 Certificate
HackerRank - Frontend Developer (React), Feb 2025
HackerRank - React (Basic), Feb 2025

HOBBIES

- Off-Road Motorcycle
- Guitar Player
